### FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

**Background**

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.204 and §134.203, effective March 1, 2008, sets the reimbursement guidelines for the disputed service.
3. Neither party to this dispute submitted copies of the explanation of benefits to support denial/reduction of payment for the disputed services.
4. The Division placed a copy of the Medical Fee Dispute Resolution request in the insurance carrier's Austin representative box, which was acknowledged received on March 7, 2017. Per 28 Texas Administrative Code §133.307(d)(1), "The response will be deemed timely if received by the division via mail service, personal delivery, or facsimile within 14 calendar days after the date the respondent received the copy of the requestor's dispute. If the division does not receive the response information within 14 calendar days of the dispute notification, then the division may base its decision on the available information." The insurance carrier did not submit any response for consideration in this dispute. Accordingly, this decision is based on the information available at the time of review..

## **Issues**

1. Was the dispute submitted in accordance with 28 Texas Administrative Code §133.307?
2. Is the requestor entitled to additional reimbursement for the functional capacity evaluation rendered on August 25, 2016?

## **Findings**

1. 28 Texas Administrative Code §133.307 (c)(2)(K) requires the requestor to submit “a paper copy of each explanation of benefits (EOB) related to the dispute as originally submitted to the health care provider in accordance with this chapter or, if no EOB was received, convincing documentation providing evidence of insurance carrier receipt of the request for an EOB.” A review of the submitted documentation finds that the requestor did not submit copies of explanation of benefits; however, there was convincing evidence that a request for an EOB was made. The division finds that the dispute was submitted in accordance with 28 Texas Administrative Code §133.307; therefore, the disputed functional capacity evaluation will be reviewed per applicable division fee guideline.
2. This dispute relates to services with reimbursement subject to the provisions of 28 Texas Administrative Code §134.204.

On the disputed date of service, the requestor billed CPT code 97750-FC.

The American Medical Association (AMA) Current Procedural Terminology (CPT) defines CPT code 97750 as “Physical performance test or measurement (eg, musculoskeletal, functional capacity), with written report, each 15 minutes.”

The requestor appended modifier “FC” to code 97750. 28 Texas Administrative Code §134.204(n)(3) states “The following Division Modifiers shall be used by HCPs billing professional medical services for correct coding, reporting, billing, and reimbursement of the procedure codes. (3) FC, Functional Capacity-This modifier shall be added to CPT Code 97750 when a functional capacity evaluation is performed”.

28 Texas Administrative Code §134.204(g) states “The following applies to Functional Capacity Evaluations (FCEs). A maximum of three FCEs for each compensable injury shall be billed and reimbursed. FCEs ordered by the Division shall not count toward the three FCEs allowed for each compensable injury. FCEs shall be billed using CPT Code 97750 with modifier “FC.” FCEs shall be reimbursed in accordance with §134.203(c)(1) of this title. Reimbursement shall be for up to a maximum of four hours for the initial test or for a Division ordered test; a maximum of two hours for an interim test; and, a maximum of three hours for the discharge test, unless it is the initial test. Documentation is required.”

Per 28 Texas Administrative Code §134.204(g) to determine the reimbursement for FCEs the Division refers to 28 Texas Administrative Code §134.203(c)(1)(2).

Per 28 Texas Administrative Code §134.203(c)(1)(2), the following formula is used to calculate the Maximum Allowable Reimbursement (MAR): (DWC Conversion Factor/Medicare Conversion Factor) X Participating Amount = MAR. 28 Texas Administrative Code §134.203(c)(1) states “To determine the MAR for professional services, system participants shall apply the Medicare payment policies with minimal modifications. (1) For service categories of Evaluation & Management, General Medicine, Physical Medicine and Rehabilitation, Radiology, Pathology, Anesthesia, and Surgery when performed in an office setting, the established conversion factor to be applied is \$52.83.”

28 Texas Administrative Code §134.203(c)(2) states “The conversion factors listed in paragraph (1) of this subsection shall be the conversion factors for calendar year 2008. Subsequent year's conversion factors shall be determined by applying the annual percentage adjustment of the Medicare Economic Index (MEI) to the previous year's conversion factors, and shall be effective January 1st of the new calendar year. The following hypothetical example illustrates this annual adjustment activity if the Division had been using this MEI annual percentage adjustment: The 2006 Division conversion factor of \$50.83 (with the exception of surgery) would have been multiplied by the 2007 MEI annual percentage increase of 2.1 percent, resulting in the \$51.90 (with the exception of surgery) Division conversion factor in 2007.”

The Division conversion factor for 2016 is \$56.82.

The Medicare conversion factor for 2016 is 35.8043.

Review of Box 32 on the CMS-1500 finds that the services were rendered in zip code 78752 which is located in Austin, Texas; therefore, the Medicare locality is “Austin, Texas.”

The Medicare participating amount for CPT code 97750 is \$33.44/unit.

Using the above formula, the MAR is \$53.07 per unit or less. The requestor billed for 16 units; therefore, \$53.07 X 16= \$849.12. The respondent paid \$0.00. The difference between MAR and amount paid is \$849.12. The requestor is seeking a lesser amount of \$845.28; this amount is recommended for additional reimbursement.

### **Conclusion**

For the reasons stated above, the Division finds that the requestor has established that additional reimbursement is due. As a result, the amount ordered is \$845.28.

### ***ORDER***

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code Sections 413.031 and 413.019 (if applicable), the Division has determined that the requestor is entitled to additional reimbursement for the services involved in this dispute. The Division hereby **ORDERS** the respondent to remit to the requestor the amount of \$845.28 plus applicable accrued interest per 28 Texas Administrative Code §134.130, due within 30 days of receipt of this Order.
